INDEX TO VOLUME 61

Abriss der metasomatischen Processe (review), 1460
Absolute age:
ore deposits, New Mexico, Laguna district, 1283
ore deposits, Pb/Pb, 1191
Absolute age, dates:
interpretation, K-Ar, kimberlites, 784, 786
minerals, phlogopite, kimberlite, 537
ore deposits, Mexico, Concepcion del Oro, 97
ore deposits, Ontario, Chibougamau, 1311
ore deposits, potassium/argon, minerals, 1205, 1303
ore deposits, strontium/rubidium, minerals, 1205, 1303
Absolyutnyi Vozrast Dokembriiskikh Porod CCCP (review), 420
Abstracts of papers, Society of Economic Geologists, San Francisco, Nov. 15–16, 1966—
Copper deposits of the Batchawana area, Ontario (Giblin), 1309
Crystallization and mineralization of a porphyry stock, Ithaca Peak, Mohave County, Arizona, The (Eidel), 1305–1306
Electrochemical method of geothermometry for ore and gangue minerals (Sato), 1301
Estimation of underground temperatures in hot spring systems from the silica content of hot spring and geothermal well waters (Fournier and Rowe), 1299
Evidence for sulfurization and the origin of Sudbury-type ores (Cheney and Lange), 1299–1300
Formation of nickel and iron sulfides from silicates at moderate temperatures, The (Fitzhugh and Seidel), 1300–1301
Irish strata-bound base metal deposits (Snelgrove), 1313
K-A_2 and Rb-Sr ages of intrusive rocks and hydrothermal minerals in the Providencia area, Mexico (Ohmoto, Hart, and Holland), 1303
Melting relationships of galena-pyrite-pyrrhotite assemblages: a homogeneous sulfide melt at 718° C (Brett and Kullerud), 1302
Metallogenic study, Lake Superior-Chibougamau region (Roscoe), 1311
Michipicoten scheelite deposit near Michipicoten Harbour, Ontario (Moyd), 1310
Abstracts of papers, Society of Economic Geologists, San Francisco, Nov. 15–16, 1966—*Continued*
Mineralization of the Ruby Creek (Bornite) copper deposit, Cosmos Hills, Alaska (Runnells), 1305
New Zealand ilmenite sands (Volin), 1314
Notes on Lake Superior type iron ores at Barsua, Orissa, India (Suffel), 1313
Occurrences of base metals south of Dead River, Negaunee quadrangle, Marquette County, Michigan (Puffett), 1310–1311
Oriented channel samples (St. Clair), 1312
Origin of primary and textural mineralogic zoning in a copper-bearing quartz monzonite stock, Santa Rita, New Mexico (Nielsen), 1295
Origin of the brown iron ores of southeastern Minnesota and their relation to the Cretaceous Windrow Formation of the upper Mississippi Valley region, The (Bleifuss), 1306–1307
Pentlandite exsolution in iron-nickel sulfide ores (Naldrett, Craig, and Kullerud), 1307
Phase relations in the system Ag-Sb-S (Keighin and Honea), 1302–1303
Physical conditions of mineralization and metamorphism, Cragford, Alabama (Neathery and Deininger), 1306
Pyrrhotite phase relations below 325° C (Hall and Yund), 1297
Quenching properties: their limitation on the use of sulfides as geologic thermometers (Skinner), 1295–1296
Reaction points of possible interest in geothermometry studies of ore deposits (Barton and Skinner), 1296
Results of detailed geochemical prospecting in the west-central part of the Negaunee quadrangle, Michigan (Segerstrom), 1312
Significance and limitations of fluid inclusion thermometry (Roedder), 1298
Significance of the FeS content of sphalerite as a geothermometer (Toulmin and Barton), 1298
Stoichiometry of sulfide minerals (Barnes and Scott), 1297
Structural and chemical ore controls in the Cave-in-Rock district, Illinois (Pinckney), 1304
Sulfur isotopes and the Pine Point lead-zinc deposits, N. W. T., Canada (Folinsbee, Krouse, and Sasaki), 1307–1308

Abstracts of papers, Society of Economic Geologists, San Francisco, Nov. 15–16, 1966—*Continued*
Textural relations of hematite and magnetite in some Precambrian metamorphosed oxide iron-formations (Han), 1309–1310
Thermometry of the telluride ores of Boulder County, Colorado (Kelly and Goddard), 1301
Tin-belts around the Atlantic Ocean and continental drift (Schuiling), 1300
Zoning of the White Pine copper deposit, Ontonagon Co., Michigan (Brown and Trammell), 1308
Abstracts of papers, Society of Economic Geologists, Stanford, Nov. 12–13, 1966—
Chemical variation in coexisting chromite and olivine in chromitite zones of the Stillwater Complex (Jackson), 794
Chromite deposits of Selukwe, Rhodesia, The (Cotterill), 796–797
Experimental investigations in chromite spinels (Ulmer), 795–796
Fennoscandian nickel deposits (Haapala), 802–803
Geology of the Bushveld Igneous Complex, the largest repository of magmatic ore-deposits in the world, The (Willemse), 792–793
Geology of the Strathcona ore deposit, Sudbury district, Ontario, The (Cowan and Lee), 801–802
Gravity differentiation and magmatic replacement of podiform chromite deposits (Thayer), 796
Iron titanium oxide minerals—experiment and theory (Lindsley), 798
Merensky Reef of the Bushveld Igneous Complex, The (Cousins), 800
Nickel sulfide ores related to ultrabasic intrusions in Canada (Kilburn, Wilson, and Graham), 803
Occurrence and characteristics of chromite deposits—eastern Bushveld Complex (Cameron and Desborough), 793–794
Origin of magnetite in the zoned ultramafic complexes of southeastern Alaska (Taylor and Noble), 798–799
Phase relations in the Cu-Fe-Ni-S system above 400° C (Craig and Kullerud), 804–805
Phase relations in the Fe-Ni-S, Cu-Fe-S, and Cu-Ni-S systems (Kullerud, Yund, and Moh), 804
Precambrian iron deposits in Missouri (Snyder), 799
Primary oxide minerals in the layered series of the Muskox intrusion (Irvine and Smith), 794–795
Solubility of sulfur in basic magmas, The (Skinner and Peck), 802
Abstracts of papers, Society of Economic Geologists, Stanford, Nov. 12–13, 1966—*Continued*
Sulfide ores of Sudbury: their particular relation to a distinctive inclusion-bearing facies of the "nickel irruptive," The (Souch and members of the Geological Staff, International Nickel Co. of Canada, Ltd.), 801
Vanadiferous magnetic iron-ore of the Bushveld Igneous Complex, The (Willemse), 797–798
Adler, I., review of book by, 1316
Adsorption of copper by peat, lignite and bituminous coal (Ong and Swanson), 1214–1231
Advances in earth science (review), 806
Afteh, S., discussion by, 1142
Age of Precambrian rocks, USSR (review), 420
Alabama:
bauxite, Eufaula, 903
gold, Cragford, thermometry, 1306
Alaska:
copper, Ruby Creek, 1305
iron, southeastern, 798
petrology, ultramafic complexes, 798
Alexandrov, E. A., reviews by, 207, 630
Al'pin, L. M., Berdichevski, M. N., Vedrintsev, G. A., and Zagarmistr, A. M., review of book by, 1163
Alteration of ilmenite (Temple), 695–714
Altered pyroclastic rocks in iron-formation in the Hamersley Range, Western Australia (LaBerge), 147–161; (discussion), 1451–1458
Altered pyroclastic rocks in South African iron-formation (LaBerge), 572–581
Aluminum:
ore deposits, general, dawsonite deposits, 1029
Ambrosia Lake, New Mexico:
isotopes, uranium, 1362
Anger, G., Nielsen, H., Puchelt, H., and Ricke, W., *Sulfur isotopes in the Rammelsberg ore deposit (Germany)*, 511–536
Antimony:
geochemistry, system Ag-Sb-S, 1302
Appalachians:
geochemistry, lead isotopes, zinc deposits, 933
Application of potential-pH diagrams for determination of the occurrence forms of trace elements in some economic mineral deposits (Łetowski, Serkies, and Niemiec), 1272–1279
Application of the potential-pH diagrams to characteristics of some Zechstein copper deposits (Serkies, Łetowski, and Niemiec), 1266–1271
Application of thermochemical data to problems of ore deposition (discussion), 622

Arizona:
geochemistry, Walapai district, sulfur isotopes, 1428
lead-zinc, Glove Mine, 731
metals, Ithaca Peak, 1305
petrology, Ithaca Peak, quartz monzonite, 1305
Arsenic:
abundance, soils, New Brunswick, 760
Aspects of the genesis and crystallization sequence of the Karibib pegmatites, South West Africa (Roering), 1064–1089)
Atlantic Coastal Plain:
phosphate, 251, 967
titanium, general, 695
Atlantic Ocean:
tectonics, continental drift, tin belts, 1300
Aubouin, J., review of book by, 631
Australia:
titanium, West Titan, 695
Australian mineral industry: the mineral deposits (review), 422

Banded iron formations at Broken Hill, Australia, and their relationship to the lead-zinc orebodies, The (Richards), Part I, 72–96; Part II, 257–274
Barakso, J., with Warren, H. V., and Delavault, R. E., *Some observations on the geochemistry of mercury as applied to prospecting,* 1010–1028
Barite:
England, Pennines, geologic thermometry, 385
Ireland, Tynagh, Northgate deposit, 1443, 1450
Barnard, W. M., and Christopher, P. A., *Further study on the effectiveness of aqueous solutions in the hydrothermal synthesis of chalcopyrite,* 1287–1290
Hydrothermal synthesis of chalcopyrite, 897–902
Barnes, H. L. and Scott, S. D., abstract by, 1297
Barry, G. S., discussion by, 1293
Bartholomé, P., *Corroded quartz grains in sedimentary ores of iron and manganese,* 886–896
Barton, P. B., Jr., and Skinner, B. J., abstract by, 1296
Barton, P. B., Jr., and Toulmin, P., III, *Phase relations involving sphalerite in the Fe-Zn-S system,* 815–849
Barton, P. B., Jr., with Toulmin, P., III, abstract by, 1298
Bathurst, New Brunswick:
geochemical prospecting, 760
Bauxite:
genesis, sinkhole deposits, 903
genesis, USSR, Turgay trough, 211
India, Monghyr, shale parent rock, 715
Belgium:
iron-manganese, Ardennes, 886
Berdichevski, M. N., with Al'pin, L. M., Vedrintsev, G. A., and Zagarmistr, A. M., review of book by, 1163
Beryllium:
geochemistry, pegmatite, South-West Africa, 1064
Bhola, K. L., Rama Rao, Y. N., Suri, Sastry, C., and Mehta, N. R., *Uranium mineralization in Singhbhum thrust belt, Bihar, India,* 162–173
Bingham district, Utah, Sulfur isotope abundance data (Field), 850–871
Biogenic Ag_2S: a correction (MacDiarmid), 405–407
Biogeochemical prospecting:
mercury, British Columbia, 1010
Biwabik Iron Formation, Minnesota, Chemical composition of the (Lepp), 243–250
Bleifuss, R. L., abstract by, 1306
Bleikvassli, Norland, Norway, On the possible modes of origin of the Caledonian sulfide ore deposit at (Vokes), 1130–1139
Bloom, H., *A field method for the determination of silver in soils and rocks using dithizone,* 189–197
Bolivia:
copper, Corocoro, 962
Books received, 214, 424, 632, 808, 979, 1164, 1316
Borodin, L. S., review of book edited by, 420
Boron:
geochemistry, tin skarn, England, 362
Bose, M. K. and Roy, A. K., *Coexisting iron-titanium oxide minerals in norites associated with anorthosites of Bengal, India,* 555–562
Bostrom, K. and Peterson, M. N. A., *Precipitates from hydrothermal exhalations on the East Pacific Rise,* 1258–1265
Bradshaw, R., with Whittard, W. F., review of book edited by, 630
Brandt, R. T., *The genesis of the Mount Goldsworthy iron ore deposits of Northwest Australia,* 999–1009
Brazil:
titanium, 695
Breccia:
intrusive, kimberlite pipe, 537
intrusive, Ontario, Sudbury, 801
Brett, R. and Kullerud, G., abstract by, 1302
British Columbia:
geochemistry, general, geochemical prospecting, 1010
Brock, M. R., with Heyl, A. V., Delevaux, M. H., and Zartman, R. E., *Isotopic study of galenas from the upper Mississippi Valley, the Illinois-Kentucky, and some Appalachian Valley mineral districts,* 933–961

Broken Hill, Australia, and their relationship to the lead-zinc orebodies, The banded iron formations at (Richards), Part I, 72–96; Part II, 257–274
Brookins, D. G. and Brown, L. E., *Sulfur isotopic analyses from Park County, Montana*, 613–617
Brooks, C., with Solomon, M., discussion of paper by, 1293
Point counting as a method of assaying wolframite at Story's Creek Mine, Tasmania, 376–384
Brown, A. C., and Trammell, J. W., abstract by, 1308
Brown, L. E., with Brookins, D. G., *Sulfur isotopic analyses from Park County, Montana*, 613–617
Brown, J. S., *Ore lead isotopes of the British Isles and Scandinavia*, 1191–1204
Buddington, A. F., discussion by, 204
discussion of article by, 1291
The Precambrian magnetite deposits of New York and New Jersey, 484–510
Burns, D. J., discussion by, 1458
Buseck, P. R., *Contact metasomatism and ore deposition: Concepcion del Oro, Mexico*, 97–136
Butte, Montana:
isotopes, oxygen, carbon, 1325

Caledonian sulfide ore deposit at Bleikvassli, Nordland, Norway, On the possible modes of origin of the (Vokes), 1130–1139
California:
geochemistry, Salton Sea, brines, 462
Callahan, W. H., *Genesis of the Franklin-Sterling, New Jersey orebodies*, 1140–1141
Cambrian:
Sardinia, sedimentation, 917
Cameron, E. N. and Desborough, G. A., abstract by, 793
Canada:
economic geology, general, 1232
nickel, general, 803
Canney, F. C., and Wing, L. A., *Cobalt: useful but neglected in geochemical prospecting*, 198–203
discussion of paper by, 625
reply to discussion of paper by, 1294
Carbon:
geochemistry, source, calcite, 1399
hydrogen, and oxygen isotopic composition of the hydrothermal fluids responsible for the lead-zinc deposits at Providencia, Zacatecas, Mexico, The (Rye), 1399–1427
isotopes, ratios, Mexico, Providencia, 1399
isotopes, ratios, Montana, Butte, 1325
isotopes, ratios, Wyoming, 44
Carbonization of semi-anthracite vitrinite by an analcime basanite sill (Kisch), 1043–1063
Carpatho-Balkan Geological Association, reviews of publications of, 206
Centro symposium on mining geology and the base metals (review), 422
Chakraborty, K. L., discussion of paper by, 964
Chandra, D., *Effect of storage of coals on reflectance and petrological composition*, 754
Chatterjee, A. K., with Sikka, D. B., Mulay, V. V., and Venugopalam, P., discussion by, 1153
Chemical analysis:
colorimetry, silver, copper-dithizonate, 189
gamma activity, uranium in phosphate, 402
Chemical composition of the Biwabik Iron Formation, Minnesota (Lepp), 243–250
Cheney, E. S., and Jensen, M. L., *Stable isotopic geology of the Gas Hills, Wyoming, uranium district*, 44–71
Cheney, E. S., and Lange, I. M., abstract by, 1299
Chowdhury, A. N., with Das Sarma, B., and Sen, B. N., *Studies on geochemistry of platinum*, 592–597
Christopher, P. A., with Barnard, W. M., *Further study on the effectiveness of aqueous solutions in the hydrothermal synthesis of chalcopyrite*, 1287–1290
Hydrothermal synthesis of chalcopyrite, 897–902
Chromite:
genesis, podiform deposits, 796
geochemistry, compositional variation, 794
geochemistry, experimental studies, oxygen fugacity, 795
geochemistry, Muskox intrusion, 794
India, general, 964
India, geochemistry, platinum content, 592
Montana, Stillwater complex, 777
South Africa, Bushveld Complex, 793
Southern Rhodesia, chromite, Selukwe, 796
Cissarz, A., review of book by, 1162
Clark, A. H., discussion by, 780, 1293
Clark, S. P., Jr., review of book edited by, 1164
Clarke, O. M., Jr., discussion of paper by, 1458
The formation of bauxite on karst topography in Eufaula district, Alabama and Jamaica, West Indies, 903–916
Clay mineralogy:
areal studies, Minnesota, brown iron ore, 1306
Clays:
kaolin deposits, Swaziland, 1104

Coal:
geochemistry, adsorption, copper, 1214
geochemistry, contact metamorphism, 343
India, textures, 137
properties, petrographic effect of storage, 754
Queensland, properties, contact metamorphosed, 1043
Cobalt:
exploration, geochemical prospecting, 198, 625, 1294
Norway, Modum district, 174
useful but neglected in geochemical prospecting (Canney and Wing), 198–203; (discussion), 625; (reply), 1294
Zambia, geochemistry, 409
Coexisting iron-titanium oxide minerals in norites associated with anorthosites of Bengal, India (Bose and Roy), 555–562
Colorado:
aluminum, dawsonite, 1029
geochemistry, Boulder County, telluride ores, 1301
Composition and origin of selected iron-titanium deposits, The (Lister), 275–310
Concepcion del Oro, Mexico, Contact metasomatism and ore deposition (Buseck), 97–136
Contact metasomatism and ore deposition: Concepcion del Oro, Mexico (Buseck), 97–136
Continental drift:
crustal structure, tin, belts, 1300
Copper:
Alaska, Ruby Creek, 1305
Bolivia, Corocoro, 962
exploration, cobalt as pathfinder, 198, 625, 1294
geochemistry, abundance, fluid inclusions, 1390
geochemistry, adsorption on organic material, 1214
geochemistry, chalcopyrite synthesis, 897, 1287
geochemistry, experimental studies, 804
geochemistry, phase equilibria, Cu-S, 641
geochemistry, system Cu-Ag-S, 1, 1383
Germany, geochemistry, Rammelsberg, 511
Illinois, Cave-in-Rock district, 1304
Ireland, Gortdrum, 1313
Mexico, Zacatecas, Concepcion del Oro, 97
Michigan, Negaunee area, geochemical prospecting, 1312
Michigan, Negaunee area, occurrence, 1310
Michigan, Nonesuch Shale, 1171, 1308
Montana, Butte, isotopes, 1325
New Mexico, Chino, Santa Rita, 1295
Newfoundland, Springdale, thermoluminescence, 1090
Northern Territory, Tennant Creek, 221
Copper—*Continued*
Ontario, Batchawana, Keweenawan, 1309
Ontario, Chibougamau, 1311
Ontario, Sudbury, 801
Ontario, Timagimi, 27
Poland, Sudeten, Zechstein, 1266
Queensland, Mount Isa, 1158
Utah, Bingham, sulfur isotopes, 850
Zambia, geochemistry, 409
Corroded quartz grains in sedimentary ores of iron and manganese (Bartholomé), 886–896
Copper-nickel deposits of Timagami Island, Ontario, The (Rose), 27–43
Corocoro Basin, Bolivia, and its relation to copper mineralization, An unconformity in the (Rutland), 962–963
Cotterill, P., abstract by, 796
Cousins, C. A., abstract by, 800
Cowan, J. C., and Lee, C. R., abstract by, 801
Craig, J. R., and Kullerud, G., abstract by, 804
Craig, J. R., with Naldrett, A. J., and Kullerud, G., abstract by, 1307
Cretaceous:
Minnesota, correlation, Windrow Formation, 1306
Syria, correlation, 1142
Crystal structures, 2nd edit., vol. 3, inorganic compounds $(R_x(MX_4)_y$, $R_x(MnX_p)_y$ (review), 632
Crystallography:
polymorphism, sulfides, 1297
Czechoslovakia:
diamonds, Bohemia, 784, 786

Darnley, A. G., discussion by, 409
Dartmoor granite, Devonshire, England, Tin-bearing skarns from the north-west border of the (El Sharkawi and Dearman), 362–369
Das Sarma, B., Sen, B. N., and Chowdhury, A. N., *Studies on geochemistry of platinum*, 592–597
Dasch, E. J., Petrović, R., and Bachinski, D. J., books received by, 214, 424, 632, 808, 979, 1164, 1316
Data of geochemistry. Sixth edition. Chapter W. Chemistry of the iron-rich sedimentary rocks (review), 806
Davidson, C. F., discussion by, 786
reviews by, 206, 418, 976
Davis, S. N., and De West, R. J. M., review of book by, 1316
Dawsonite in the Green River Formation of Colorado (Smith and Milton), 1029–1042
Dearman, W. R., with El Sharkawi, M. A. H., *Tin-bearing skarns from the north-west border of the Dartmoor granite, Devonshire, England*, 362–369
Dechow, E., and Jensen, M. L., discussion of paper by, 409

Decomposition of siderite to magnetite at lower oxygen fugacities: a thermochemical interpretation and geological implications (Yui), 768–776
Deformation:
Mississippian, Ireland, 1443, 1450
Deininger, R. W., with Neathery, T. L., abstract by, 1306
de Kun, N., review of book by, 213
Delevaux, M. H., with Heyl, A. V., Zartman, R. E., and Brock, M. R., *Isotopic study of galenas from the upper Mississippi Valley, the Illinois-Kentucky, and some Appalachian Valley mineral districts*, 933–961
Delavault, R. E., with Warren, H. V., and Barakso, J., *Some observations on the geochemistry of mercury as applied to prospecting*, 1010–1028
Derry, D. R., discussion by, 1450
Derry, D. R., Clark, G. R., and Gillatt, N., discussion of paper by, 1443
Desai, A. A., with Hagni, R. D., *Solution thinning of the M bed host rock limestone in the Tri-State district, Missouri, Kansas, Oklahoma*, 1436–1442
Desborough, G. A., *The significance of accessory magmatic sphalerite in basic rocks to the origin of nickeliferous pyrrhotite ores*, 370–375
Desborough, G. A., with Cameron, E. N., abstract by, 793
Dessau, G., with Jensen, M. L., *Ore deposits of southwestern Sardinia and their sulfur isotopes*, 917–932
Developments in sedimentology. 5. The movement of beach sand (review), 808
De West, R. J. M., with Davis, S. N., review of book by, 1316
Dhana Raju, R., with Krishna Rao, J. S. R., discussion by, 968, 971
Diagenesis:
pyritization, fossils, oolites, 872
Diagenetic pyritization in three sedimentary rocks (Kalliokoski), 872–885
Diamantiferous diatremes (discussion), 784–786; (reply), 786–790
Diamonds:
genesis, general, 784, 786
Tanzania, Mwadui mine, kimberlite, 537
Diapirs:
Bolivia, Corocoro Basin, 962
Dietrich, R. V., review of book by, 1461
Dipole methods for measuring earth conductivity (review), 1163
Discussions:
Altered pyroclastic rocks in iron-formation in the Hamersley Range, Western Australia (LaBerge), Trendall, 1451–1458
Application of thermochemical data to problems of ore deposition (Holland), Hall, 622–623
Discussions—*Continued*
Cobalt: useful but neglected in geochemical prospecting (Canney and Wing), Harden, 625; (reply), Canney and Wing, 1294
Diamantiferous diatremes (Davidson), Lebedev and Trofimov, 784–786; (reply), Davidson, 786–788
Development of magnetite in iron formation of the Lake Superior region (Laberge), Mancuso, 408
Equilibrium temperature, P_{S_2}, and P_{O_2} during formation of the Marmoraton pyrometasomatic iron deposit (Park), Clark, 780–784
Formation of bauxite and karst topography in Eufaula district, Alabama and Jamaica, West Indies, The (Clarke), Burns, 1458–1459
Indian chromites (*Chakraborty*), Mukherjee, 964–966
Investigations into sulfide mineralization at Mount Isa, Queensland (Solomon), Lyall, 1158–1161
Lead-zinc deposit of Zawar, India, The (Mookherjee; Smith; Pereira; and Poddar), Sikka, Chatterjee, Mulay, and Venugopalam, 1153–1158
Liquid immiscibility in chromite seam formation (McDonald), Jackson, 777–780
Manganese ores, Andhra Pradesh, India: a reply to suggestions of Supriya Roy, Krishna Rao and Dhana Raju, 971–974
Northgate base-metal deposit at Tynagh, County Galway, Ireland, The (Derry, Clark, and Gillatt), Schultz, 1443–1449; (reply), Derry, 1450–1451
Petrographic and modal relations, Sanford Hill titaniferous magnetite deposit (Kays), Buddington, 204–205; (reply), Kays, 624
Phosphatic deposits in Syria and Safaga district, Egypt (Omara), Atfeh, 1142–1152
Point counting as a method of assaying wolframite at Story's Creek Mine, Tasmania (Solomon and Brooks), Barry, 1293
Precambrian magnetite deposits of New York and New Jersey, The (Buddington), Hagner, 1291–1292
Problem of the nomenclature of the kodurites, The (Roy), Krishna Rao and Dhana Raju, 968–970
Reflectivity measurements on molybdenite (Leow), Clark, 1293–1294
Shallow-water phosphorites (Pevear), McConnell, 967–968
Sulfur isotopes of some central African sulfide deposits (Dechow and Jensen), Darnley, 409

Distribution and nature of arsenic in the soils of the Bathurst, New Brunswick district, The (Presant and Tupper), 760–767
Doe, B. R., Hedge, C. E., and White, D. E., *Preliminary investigation of the source of lead and strontium in deep geothermal brines underlying the Salton Sea geothermal area*, 462–483
Dolomite:
geochemistry, replacement by magnesite, 582
Dooley, J. R., Jr., Granger, H. C., and Rosholt, J. N., *Uranium-234 fractionation in the sandstone-type uranium deposits of the Ambrosia Lake district, New Mexico*, 1362–1382
Dzotsenidze, G. S., review of book by, 421
Dżułyński, S., and Walton, E. K., review of book by, 417

Economic geology:
methods, estimating chromite grade, 794
Edwards, C. B., and Howkins, J. B., *Kimberlites in Tanganyika with special reference to the Mwadui occurrence*, 537–554
Effect of storage of coals on reflectance and petrological composition (Chandra), 754–759
Egalley, J., with Young, A., review of book edited by, 423
Egypt:
Safaga district, 1142
Eidel, J. J., abstract by, 1305
Einführung in die allgemeine und systematische Lagerstättenlehre (review), 1162
Electromagnetism and the earth's interior (review), 631
El Sharkawi, M. A. H., and Dearman, W. R., *Tin-bearing skarns from the north-west border of the Dartmoor granite, Devonshire, England*, 362–369
Engineering geology case histories numbers 1–5 (review), 214

VOLUME 61

NEW HAVEN, CONNECTICUT

THE ECONOMIC GEOLOGY PUBLISHING COMPANY

1966

SOCIETY OF ECONOMIC GEOLOGISTS

THE PUBLICATIONS OF WHICH CONSTITUTE
A PART OF THIS JOURNAL

OFFICERS FOR 1966

JOHN K. GUSTAFSON, *President*

FREDERICK S. TURNEAURE, *Vice President*

CHARLES H. BEHRE, JR., *President-Elect*

GEORGES ORDOÑEZ, *Vice President-Elect*

JORMA O. KALLIOKOSKI, *Secretary*, Dept. of Geology, Princeton University, Princeton, N. J. 08540

ROBERT M. GROGAN, *Treasurer*, Development Dept., Dupont Bldg., Wilmington, Delaware 19899

Councilors

Until March 1967	*Until March 1968*	*Until March 1969*
JOHN H. MOSES	PAUL B. BARTON, JR.	DELOS E. FLINT
WALTER S. WHITE	PAUL K. SIMS	ALAN T. BRODERICK
H. D. BRUCE WILSON	CHARLES P. JENNEY	EUGENE CALLAGHAN

President; Vice President; President-Elect; Vice President-Elect; HENRY C. GUNNING, *Past President;* ELBURT F. OSBORN, *Past Vice President; Secretary; Treasurer*

Regional Vice Presidents

WILLIAM G. GARLICK, Africa
CHIKAO NISHIWAKI, Asia
JACK M. RAYNER, Australia
ALBERT MAUCHER, Europe
CHARLES E. MICHENER, North America
ALBERTO BENAVIDES Q., South America

Executive Committee

President
Vice President
Secretary
Treasurer
President-Elect
Past President, HENRY C. GUNNING

Finance Committee

JOHN H. MOSES, *Chairman* — LYMAN H. HART — GEORGE E. KRUGER

Program Committee

PAUL K. SIMS, *Chairman* — OGDEN TWETO — SIEGFRIED MUESSIG

Committee on Publications

PAUL B. BARTON, JR., *Chairman* — ALFRED K. SNELGROVE — ULRICH PETERSEN

Nominating Committee

FREDERICK S. TURNEAURE, *Chairman* — FREDERIC M. CHACE — C. J. SULLIVAN

Admissions Committee

ARTHUR E. BULLER, *Chairman* — PETER JORALEMON — JOHN C. RUCKMICK
WALTER S. WHITE — WALTER HEINRICHS, JR.

Program Policy Committee

ELBURT F. OSBORN, *Chairman*	CHESTER O. ENSIGN, JR.	PAUL K. SIMS
A. D. HOAGLAND	GEORGES ORDOÑEZ	OGDEN TWETO
FREDERICK S. TURNEAURE	STANLEY E. JEROME	SIEGFRIED MUESSIG

Auditing Committee

ARTHUR R. KINKEL, JR., *Chairman* — E. F. FITZHUGH

Research Committee

Until March 1967	*Until March 1968*	*Until March 1969*
H. D. B. WILSON, *Chairman*	BRIAN J. SKINNER	GEORGE TUNELL
VINCENT E. MCKELVEY	JOHN J. HEMLEY	KONRAD B. KRAUSKOPF
JOHN D. RIDGE	CHARLES H. SMITH	HARRISON SCHMITT

Representatives to American Geological Institute

Until March 1969
ROBERT S. MOEHLMAN

Until March 1967
FRANK G. SNYDER

Representative to Committee on Coordination of Certification

B. F. BUIE

Representative to National Research Council

DONALD E. WHITE

Membership Secretary

CARL E. DUTTON, U. S. Geol. Survey, 222 Science Hall, Madison, Wisc. 53706

CONTENTS OF VOLUME 61

Number 1

The System Cu–Ag–S ..... *Brian J. Skinner* 1
The Copper-Nickel Deposits of Timagami Island, Ontario ..... *Edward R. Rose* 27
Stable Isotopic Geology of the Gas Hills, Wyoming, Uranium District *E. S. Cheney and M. L. Jensen* 44
The Banded Iron Formations at Broken Hill, Australia, and Their Relationship to the Lead–Zinc Orebodies. Pt. I ..... *S. M. Richards* 72
Contact Metasomatism and Ore Deposition: Concepcion Del Oro, Mexico *Peter R. Buseck* 97
Fusinized Resins in Gondwana (Permian) Coals of India ..... *H. S. Pareek* 137
Altered Pyroclastic Rocks in Iron-Formation in the Hamersley Range, Western Australia ..... *Gene L. LaBerge* 147
Uranium Mineralization in Singbhum Thrust Belt, Bihar, India *K. L. Bhola, Y. N. Rama Rao, C. Suri Sastry, and N. R. Mehta* 162
Fahlbands in the Precambrian of Southern Norway ..... *J. B. Gammon* 174
A Field Method for the Determination of Silver in Soils and Rocks Using Dithizone ..... *Harold Bloom* 189

Scientific Communications:
Cobalt: Useful But Neglected in Geochemical Prospecting *F. C. Conney and L. A. Wing* 198

Discussions:
Petrographic and Modal Relations, Sanford Hill Titaniferous Magnetite Deposit ..... *A. F. Buddington* 204

Reviews:
Publications of the Carpatho-Balkan Geological Association .... *C. F. Davidson* 206
Geology of Ore Deposits, Vol. 6, No. 6, 1964 ..... *E. A. Alexandrov* 207
Historical Geology (A. O. Woodford) 212
Geology of Australian Ore Deposits, 2nd Edit. (J. McAndrew, Editor) 213
The Mineral Resources of Africa (N. DeKun) 213
Geological Survey Research 1965, Chapter C (G. Phair, Editor) 214
Engineering Geology Case Histories Number 1–5 (Trask and Kiersch, Editors) 214
Books Received ... *E. Julius Dasch, Radomir Petrović, and Donald J. Bachinski* 214

Society of Economic Geologists 219

Scientific Notes and News 220

Number 2

Geology of the Orlando Mine, Tennant Creek, Australia ..... *R. D. McNeil* 221
Chemical Composition of the Biwabik Iron Formation, Minnesota ..... *Henry Lepp* 243
The Estuarine Formation of United States Atlantic Coastal Plain Phosphorite *D. R. Pevear* 251

The Banded Iron Formations at Broken Hill, Australia, and Their Relationship to the Lead–Zinc Orebodies. Pt. II.....*S. M. Richards* 257
The Composition and Origin of Selected Iron–Titanium Deposits.....*G. F. Lister* 275
Lower Carboniferous Cherty Ironstones at Tynagh, Ireland.....*R. W. Schultz* 311
Metamorphism and Alteration Near an Intrusive-Coal Contact
H. J. Kisch and G. H. Taylor 343
Tin-Bearing Skarns from the North-West Border of the Dartmoor Granite, Devonshire, England.....*M. A. H. El Sharkawi and W. R. Dearman* 362
The Significance of Accessory Magmatic Sphalerite in Basic Rocks to the Origin of Nickeliferous Pyrrhotite Ores.....*G. A. Desborough* 370
Point Counting as a Method of Assaying Wolframite at Story's Creek Mine, Tasmania.....*M. Solomon and C. Brooks* 376
Ore Genesis in the North Pennine Orefield, in the Light of Fluid Inclusion Studies
F. J. Sawkins 385

Scientific Communications:
Radioactivity in Phosphate Rock.....*Fathi Habashi* 402
Biogenic Ag_2S: A Correction.....*R. A. MacDiarmid* 405

Discussions:
Development of Magnetite in Iron Formations of the Lake Superior Region
J. J. Mancuso 408
Sulfur Isotopes of Some Central African Sulfide Deposits.....*A. G. Darnley* 409

Reviews:
Symposium Problems of Postmagmatic Ore Deposition, with Special Reference to the Geochemistry of Ore Veins, Vol. II.....*C. F. Park* 415
Mapa de Yacimientos Minerales de Cuba.....*A. A. Meyerhoff* 416
Sedimentary Features of Flysch and Greywackes.....*P. A. Rona* 417
Short Reviews of Recent Russian Books.....*C. F. Davidson* 418
Australian Mineral Industry: The Mineral Deposits..... 422
Centro Symposium on Mining Geology and the Base Metals..... 422
An Introduction to Statistical Models in Geology..... 422
U. S. Geological Survey Research 1965. Chapter D..... 423
Minerals Day Collected Papers..... 423
Fluids in Subsurface Environments..... 423
Books Received...*E. Julius Dasch, Radomir Petrović, and Donald J. Bachinski* 424

Office of the Business Editor, Economic Geology Publishing Co...... 429

Scientific Notes and News..... 430

Number 3

Stratified Deposits of the Oxides and Carbonates of Manganese.....*D. F. Hewett* 431
Preliminary Investigation of the Source of Lead and Strontium in Deep Geothermal Brines Underlying the Salton Sea Geothermal Area
B. R. Doe, C. E. Hedge, and D. E. White 462
The Precambrian Magnetite Deposits of New York and New Jersey
A. F. Buddington 484
Sulfur Isotopes in the Rammelsberg Ore Deposit (Germany)
G. Anger, H. Nielsen, H. Puchelt, and W. Ricke 511
Kimberlites in Tanganyika with Special Reference to the Mwadui Occurrence
C. B. Edwards and J. B. Howkins 537

Coexisting Iron–Titanium Oxide Minerals in Norites Associated with Anorthosites of Bengal, India....*M. K. Bose and A. K. Roy* 555
Thorium, Uranium, and Potassium Concentrations in Granites and Gneisses of the Rum Jungle Complex, Northern Territory, Australia
K. S. Heier and J. M. Rhodes 563
Altered Pyroclastic Rocks in South African Iron-Formation....*G. L. LaBerge* 572
A Mechanism for the Emplacement of Magnesite in Dolomite
P. E. Rosenberg and J. W. Mills 582
The Mechanism of Oxidation of Sulfide Ores in Nature....*Fathi Habashi* 587
Studies on Geochemistry of Platinum
B. Das Sarma, B. N. Sen, and A. N. Chowdhury 592
Reflectivity Measurements on Molybdenite....*J. H. Leow* 598

Scientific Communications:
Sulfur Isotopic Analyses from Park County, Montana
D. G. Brookins and L. E. Brown 613
International Association on the Genesis of Ore Deposits....*Jan Kutina* 618

Discussions:
Application of Thermochemical Data to Problems of Ore Deposition..*H. T. Hall* 622
Petrographic and Modal Relations, Sanford Hill Titaniferous Magnetite Deposit....*M. A. Kays* 624
Cobalt: Useful but Neglected in Geochemical Prospecting....*G. Harden* 625

Society of Economic Geologists:
International Activities and Developments....*H. C. Gunning and T. B. Nolan* 627

Reviews:
Geotektonika—A New Russian Journal....*E. A. Alexandrov* 630
Submarine Geology and Geophysics (Whittard and Bradshaw, Eds.).... 630
Electromagnetism and the Earth's Interior (T. Rikitake).... 631
Traite de Tectonique, 2nd Edit. (J. Goguel).... 631
Geosynclines (J. Aubouin).... 631
Crystal Structures, 2nd Edit., Vol. 3, Inorganic Compounds ($R_x(MX_4)_y$, $Rx(MnX_p)_y$, Hydrates and Ammoniates.... 632
Books Received...*E. Julius Dasch, Radomir Petrović, and Donald J. Bachinski* 632

Scientific Notes and News.... 640

Number 4

An Investigation of the System Cu–S and Some Natural Copper Sulfides Between 25° and 700° C....*E. H. Roseboom, Jr.* 641
Massive Pyritic Deposits Related to Volcanism, and Possible Methods of Emplacement....*A. R. Kinkel, Jr.* 673
Alteration of Ilmenite....*A. K. Temple* 695
On the Occurrence and Geochemistry of Bauxite Deposits of Monghyr Area (India)
Zia-Ul Hasan 715
Oxidation of a Sulfide Body, Glove Mine, Santa Cruz County, Arizona..*H. J. Olson* 731
Mercury as an Ore Guide in the Pachuco–Real Del Monte District, Hidalgo, Mexico....*G. H. Friedrich and H. E. Hawkes* 744
Effect of Storage of Coals on Reflectance and Petrological Composition..*D. Chandra* 754

The Distribution and Nature of Arsenic in the Soils of the Bathurst, New Brunswick District.....*E. W. Presant and W. M. Tupper* 760
Decomposition of Siderite to Magnetite at Lower Oxygen Fugacities: A Thermochemical Interpretation and Geological Implications.....*Shunzo Yui* 768

Discussions:
Liquid Immiscibility in Chromitite Seam Formation.....*E. D. Jackson* 777
Equilibrium Temperature, P_{S_2}, and P_{O_2} During Formation of the Marmoration Pyrometasomatic Iron Deposit.....*A. H. Clark* 780
Diamanitiferous Diatremes.....*A. P. Lebedev and A. S. Trofimov* 784
Diamantiferous Diatremes—A Reply.....*C. F. Davidson* 786

Society of Economic Geologists:
Report of Nominating Committee..... 791
Waldemar Lindgren Citation Award..... 791
Program and Abstracts Symposium on Magmatic Ore Deposits at Stanford University, November 12 and 13, 1966..... 792

Reviews:
Étude Géologique du Bassin du Niari Oriental (République de Congo—Brazzaville) et de ses Minéralisations Cu–Pb–Zn (G. Scloari)..*Radomir Petrović* 806
Advances in Earth Science (P. M. Hurley, Ed.)..... 806
Data of Geochemistry, Sixth Edition. Chapter W. Chemistry of the Iron-Rich Sedimentary Rocks (H. L. James)..... 806
Syngenetic Manganese Formations of India (S. Roy)..... 807
The Precambrian Geology of South West Africa and Namaqualand (H. Martin) 807
Developments in Sedimentology. 5. The Movement of Beach Sand (J. C. Ingle, Jr.)..... 808
Books Received...*E. Julius Dasch, Radomir Petrović and Donald J. Bachinski* 808

Scientific Notes and News..... 814

Number 5

Phase Relations Involving Sphalerite in the Fe–Zn–S System
P. B. Barton, Jr., and P. Toulmin, III 815
Sulfur Isotope Abundance Data, Bingham District, Utah..... *C. W. Field* 850
Diagenetic Pyritization in Three Sedimentary Rocks.....*J. Kalliokoski* 872
Corroded Quartz Grains in Sedimentary Ores of Iron and Manganese..*P. Bartholomé* 886
Hydrothermal Synthesis of Chalcopyrite....*W. M. Barnard and P. A. Christopher* 897
The Formation of Bauxite and Karst Topography in Eufaula District, Alabama and Jamaica, West Indies.....*O. M. Clarke, Jr.* 903
Ore Deposits of Southwestern Sardinia and Their Sulfur Isotopes
M. L. Jensen and G. Dessau 917
Isotopic Study of Galenas from the Upper Mississippi Valley, the Illinois–Kentucky, and Some Appalachian Valley Mineral Districts
A. V. Heyl, M. H. Delevaux, R. E. Zartman, and M. R. Brock 933

Scientific Communication:
An Unconformity in the Corocora Basin, Bolivia, and Its Relation to Copper Mineralization.....*R. W. Rutland* 962

Discussions:

Indian Chromites....*S. Mukherjee* 964
Shallow Water Phosphorites....*D. McConnell* 967
The Problem of the Nomenclature of the Kodurites
J. S. R. Krishna Rao and R. Dhana Raju 968
Manganese Ores, Andhra Pradesh, India: A Reply to Suggestions of Supriya Roy....*J. S. R. Krishna Rao and R. Dhana Raju* 971

Reviews:

Geología y yacimientos metalíferos de Chile (Ruiz)....*G. E. Ericksen* 975
Regional Geology of Czechoslovakia. Pt. I, The Bohemian Massif....*C. F. D.* 976
Symposium on Strata-bound Sulphides and Their Formative Environment (Pekar and Goowind, Co-Chairmen)....*F. S. Turneaure* 977
Books Received...*E. Julius Dasch, Radomir Petrović and Donald J. Bachinski* 979

Society of Economic Geologists:

Carl E. Dutton, Membership Secretary.... 984
Requirements for Membership.... 984
Reports of President, Secretary, and Treasurer for 1965.... 985

Scientific Notes and News.... 997

Number 6

The Genesis of the Mount Goldsworthy Iron Ore Deposits of Northwest Australia....*R. T. Brandt* 999
Some Observations on the Geochemistry of Mercury as Applied to Prospecting
H. V. Warren, R. E. Delavault, and J. Barakso 1010
Dawsonite in the Green River Formation of Colorado...*J. W. Smith and C. Milton* 1029
Carbonization of Semi-Anthracitic Vitrinite by an Analcime Basanite Sill
H. J. Kisch 1043
Aspects of the Genesis and Crystallization Sequence of the Karibib Pegmatites, South West Africa....*C. Roering* 1064
A Study of the Distribution of Thermoluminescence around an Ore Deposit
D. J. McDougall 1090
The Origin of Kaolin Deposits, Mahlangatsha Mountains, Swaziland
D. R. Hunter and J. G. Urie 1104
Sulfur Isotopes in Pyrite, Pyrrhotite, Alunite and Anhydrite from Steam Wells in the Taupo Volcanic Zone, New Zealand....*A. Steiner and T. A. Rafter* 1115
On the Possible Modes of Origin of the Caledonian Sulfide Ore Deposit at Bleikvassli, Nordland, Norway....*F. M. Vokes* 1130

Scientific Communication:

Genesis of the Franklin–Sterling, New Jersey Orebodies....*W. H. Callahan* 1140

Discussions:

Phosphatic Deposits in Syria and Safaga District, Egypt....*M. S. Atfeh* 1142
The Lead–Zinc Deposit of Zawar, India
D. B. Sikka, A. K. Chatterjee, V. V. Mulay, and P. Venugopalam 1153
Investigations into Sulfide Mineralization at Mount Isa, Queensland..*K. D. Lyall* 1158

Reviews:

Einführung in die allegemeine und systematische Lagerstättenlehre (A. Cissarz) *Radomir Petrović* 1162

Geological Survey Research 1965 1162

Mining Geophysics (D. S. Parasnis) 1163

Dipole Methods for Measuring Earth Conductivity (L. M. Al'pin and others) .. 1163

Methods of Working Coal and Metal Mines (S. D. Woodruff) 1163

Handbook of Physical Constants (S. P. Clark, Jr., Ed.) 1164

Books Received...*E. Julius Dasch, Radomir Petrović, and Donald J. Bachinski* 1164

Society of Economic Geologists:

Program for Fall Meeting of SEG and GSA 1168

Scientific Notes and News 1170

Number 7

Sulfide-Mineral Zoning in the Basal Nonesuch Shale, Northern Michigan *W. S. White and J. C. Wright* 1171

Ore Lead Isotopes of the British Isles and Scandinavia.....*J. S. Brown* 1191

Studies in the Providencia Area. Mexico. II. K–AR and RB–SR Ages of Intrusive Rocks and Hydrothermal Minerals *H. Ohmoto, S. R. Hart, and H. D. Holland* 1205

Adsorption of Copper by Peat, Lignite, and Bituminous Coal *H. Ling Ong and V. E. Swanson* 1214

The Role of Unconformities in the Localization of Epigenetic Mineral Deposits in the United States and Canada.....*J. W. Mills and H. T. Eyrich* 1232

Precipitates from Hydrothermal Exhalations on the East Pacific Rise *K. Bostrom and M. N. A. Peterson* 1258

Application of the Potential-pH Diagrams to Characteristics of Some Zechstein Copper Deposits.....*J. Serkies, F. Letowski, and J. Niemiec* 1266

Application of Potential-pH Diagrams for Determination of the Ocurrence Forms of Trace Elements in Some Economic Mineral Deposits *F. Letowski, J. Serkies, and J. Niemiec* 1272

Scientific Communications:

Mineralogy and Genesis of the Manganese Ores of Kajlidongri Mine, District Jhabua, Madhya Pradesh, India.....*V. K. Nayak* 1280

Geologic Limitations on the Age of Uranium Deposits in the Jackpile Sandstone, New Mexico.....*J. T. Nash and Paul F. Kerr* 1283

Further Study on the Effectiveness of Aqueous Solutions in the Hydrothermal synthesis of Chalcopyrite.....*W. M. Barnard and P. A. Christopher* 1287

Discussions:

The Precambrian Magnetite Deposits of New York and New Jersey *A. F. Hagner* 1291

Point Counting as a Method of Assaying Wolframite at Story's Creek Mine, Tasmania.....*G. S. Barry* 1293

Reflectivity Measurements on Molybdenite.....*A. H. Clark* 1293

Cobalt; Useful but Neglected in Geochemical Prospecting—A Reply *F. C. Canney and L. A. Wing* 1294

Society of Economic Geologists:
Abstracts of Papers Presented at the San Francisco Meeting, November, 1966.. 1295
Abstracts of Papers Presented at the 12th Annual Meeting of Institute on Lake Superior Geology, May 1966..... 1308

Reviews:
Metallic and Industrial Mineral Deposits (Lamey)..... 1315
Geology Illustrated (Shelton)..... 1315
X-Ray Emission Spectrography in Geology (Adler)..... 1316
Hydrogeology (Davis and DeWest)..... 1316
Books Received...*E. Julius Dasch, Radomir Petrović, and Donald J. Bachinski* 1316

Scientific Notes and News..... 1323

Number 8

The Isotopic Composition of Oxygen and Carbon in Hydrothermal Minerals at Butte, Montana.....*G. D. Garlick and Samuel Epstein* 1325
A Paleomagnetic Study of the Gunflint, Mesabi, and Cuyuna Iron Ranges in the Lake Superior Region.....*D. T. A. Symons* 1336
Uranium-234 Fractionation in the Sandstone-Type Uranium Deposits of the Ambrosia Lake District, New Mexico
J. R. Dooley, Jr., H. C. Granger, and J. N. Rosholt 1362
McKinstryite, A New Copper-Silver Sulfide
B. J. Skinner, J. L. Jambor, and M. Ross 1383
Studies in the Providencia Area, Mexico; III. Neutron Activation Analyses of Fluid Inclusions from Noche Buena.....*H. F. Puchner and H. D. Holland* 1390
The Carbon, Hydrogen, and Oxygen Isotopic Composition of the Hydrothermal Fluids Responsible for the Lead-Zinc Deposits at Providencia, Zacatecas, Mexico.....*R. O. Rye* 1399
Sulfur Isotopic Method for Discriminating Between Sulfates of Hypogene and Supergene Origin.....*C. W. Field* 1428
Solution Thinning of the M Bed Host Rock Limestone in the Tri-State District, Missouri, Kansas, Oklahoma.....*R. D. Hagni and A. A. Desai* 1436

Discussions:
The Northgate Base-Metal Deposit at Tynagh, County Galway, Ireland
R. W. Schultz 1443
